A Free World Novel THE CITY OF SHARON Real or Imagined : The story is based on actual happenings. The totalitarian situation is common knowledge. Some of the dialog is based on rumor and hearsay and sketchy news reports. The characters are aware of limited mythical influence caused by extreme duress. A prime character, Frederick von Popenov spent the first ten years of his life living with his family on a small farm in the country. Life suddenly changed when the nations political party in control nationalizes industry and sets up the police state and the network city. Nobody was allowed to own property or valuables. Many lower class people were sent to work in the common factories and on the common farms. The class workers and peasants sent to live and work at the City of Sharon found life difficult. Caught in the chaos and desperation of the common movement they miraculously escape the gulag or prison. A series of events involve a people from another side whose presence and assistance culminates in the prisoners escape into the hills around the devastated city. Unknown to the public, due to the type of people sent to live there, the City of Sharon had been set up as a designated bombing target by the World Board of Directors. While the prisoners make their escape, the city is obliterated by a nuclear bomb. Those who remained there were killed. Those who lived in other network cities became suspicious of their invisible government due to the total devastation of the city. All the people begin to look for a way out of party domination. Timorous, desperate and frightened, the fugitives begin a free world civilization in the wilderness about the the city of Sharon. The survivors elude the authorities in control of the totalitarian state and build a military defense system and prepare to defend their new found freedom or nation.
